# Medical Management for CBRNE Events (PER-211)

## DATE & LOCATION

October 1 & 2, 2025 | 0800 -1700 EST |

Elkhart City Fire Department Training Annex  
911 Maryland Avenue  
Elkhart, IN 46516

## COURSE DESCRIPTION

Medical Management of Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) Events provides a strong emphasis on a whole-community team approach to responding to incidents, including those caused by CBRNE or a coordinated complex violent event. The course is delivered using a combination of facilitated discussions, small-group exercises, Human Patient Simulator hands-on scenarios, and traditional classroom discussions.

Exercises are conducted in CBRNE scenarios using both adult and pediatric Human Patient Simulators to reinforce classroom lectures and interaction. This course promotes critical thinking skills while utilizing the Recognition, Activation, Protection, Identification, Decontamination, and Care (RAPID-Care) concept. The multi-discipline make-up of the participants helps to strengthen information sharing, communications, and medical surge capabilities.
